

VOICE MAIL RFP 06-060 AAB
SUBMITTED QUESTIONS AND ANSWERS 6/22/2006

Q#	Section and Page #	Question	Answer
1.	Part C, Section 1.4, Page 11	Does the current integration for the Centrex/NEC PBX use analog or T1 cards?	The county uses 66 analog lines in a UCD from the Centrex and 54 analog lines in a hunt group from the NEC—with one SMDI circuit from the Centrex and one MCI circuit from the NEC for message waiting. The diagram on page 11 of part C details voice mail integration with the existing voice.
